

design • manufacture • install

our story

built by West Coast for the west coast

LOCALLY MADE SINCE 1976

West Coast Windows designs and manufactures custom crafted windows and doors for the renovation and new construction industry. We are a 100% BC-owned and operated family business. Our two generations of family pride and expertise go into every product we manufacture.

REDUCING OUR IMPACT

We take pride in using green initiatives throughout material sourcing and the manufacturing process. Our windows and doors perform with maximum efficiency and help in reducing energy costs and our carbon footprint.

CUSTOM INSTALLATIONS

Each West Coast Windows installation expert is factory-trained to maximize the performance of our products through the installation process. We build, install and warranty every window and door so all angles of your project are covered for life.

VINYL

All our products start with Canadian uPVC vinyl, ensuring the strongest, safest and best performing systems around. Designed for the west coast, our profiles are uniquely tailored and engineered for our coastal climate.

GLASS

Our insulated glass units are made in BC using Cardinal™ LoE glass and the latest technology in warm-edge silicone spacer. Super Spacer™ is laboratory test proven to have the best performance on the market. Other benefits include: architecturally attractive black glazing edge, improved sound abatement and a seal that will last a lifetime.

quality materials come in, quality products go out

HARDWARE

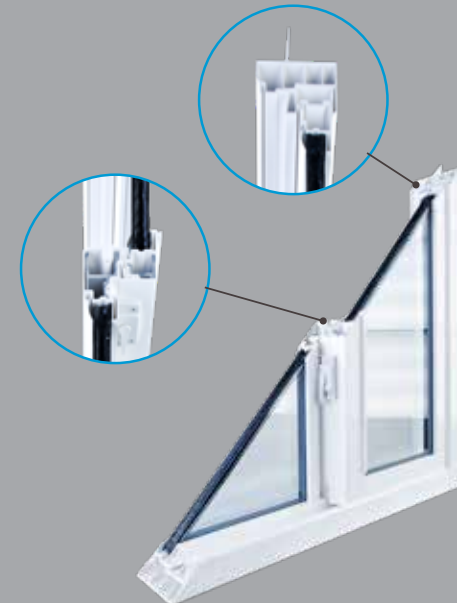

Using American made Truth™ Hardware and stainless-steel hinges, we focus on optimal performance and longevity while ensuring your home's security. Our hardware comes in a wide selection of colours, styles and finishes. Ask about further improving the safety of our hardware by adding swing restrictors, locking crank handles or top mounted pin locks to your windows.

CREATIVE OPTIONS

Creativity and design flexibility is what sets West Coast Windows apart from the rest. We build windows to match your vision for your home. Options include but are not limited to: Four styles of hardware in six finishes from traditional to contemporary. Six different SDL bars. Rounded or square glazing bead. Unlimited custom colours in two unique finishes.

LIFETIME WARRANTY

For as long as you own your home, every part of your new window or door is fully covered. With our award-winning customer service, you will have the peace of mind knowing that any warranty work will be completed in a timely manner. Our warranty is even transferable to subsequent owners for 25 years.

enertech

the future of window technology is clear

CONTEMPORARY DESIGN. PROVEN PERFORMANCE.

West Coast Window's Enertech Collection provides an innovative solution for today's energy-efficient home. This new collection includes slider, casement, awning and picture windows. With a focus on contemporary design and maximum performance, each series redefines our expectations for windows.
